Dear Mike,

I have always been a very positive person and have listened to all kinds of inspirational tapes throughout the years to try to better myself both personally and professionally. I even attended a few seminars, but was really turned off with all the “rah – rah”. It just felt like the information that was given was only good for that weekend and I really wouldn’t use it down the road.

So you can imagine that Success Starts Now, seemed like it would just be like “one of those seminars” that really wouldn’t make a difference. But I tried to listen with an open mind. When they came into the office, I could see their enthusiasm and more importantly how their techniques could relate to many different business applications. I thought I would bite the bullet and sign up for the seminar. I say “bite the bullet” because I would have to lie to my husband where the money was going to be spent. HA!

I attended the seminar and tried to take it all in. I didn’t want to miss anything because there was so much to learn that I was lucky that the SSN Team was able to guide me to which mini breakout seminar would help me best. I felt that there was much more to Success Starts Now. I was and still am impressed with their background and talent that was made available to me. I was also curious about this special coaching session they called TPE “Top Producers Edge”.

I’ve ran into several “life coaches” in the past. But never felt “they were good enough” to help me. Seeing the clout behind the organization I thought I would work with Mike Lippert the “TPE” coach and program to see if he could guide me to hitting my goals I had set for the year.

I can say that I am a **true believer** in the system. Their system is really finding what works for each individual and helping you attain your goals! I’ve hit every one of my goals during the TPE Program and have exceeded them by far more than I ever thought. I’m still not sure how we were able to do it, but I guess that’s the beauty of the program.

I’m just thankful that I “got out of my own way” and just went for it!

Truly Thankful, Thanks Mike!

I have attended many sales trainings. I found the value in the fact that you preach accountability. Not as much "fluff" as some of them. I can not wait to see the results I get from TPE.
